Dear Points reader,

You *know* the faith of many is being *methodically tormented* and *sometimes broken*, by intellectual "
bullies
" in college classrooms (sometimes in high school). If you've seen this first-hand, you know it is ho
rrible. And unfortunately, some of these bullies
profess
to be
"believers"
themselves. The Book of Jude talks about these
"teachers";
so does Romans 1:20-25.

Check out those *behind* this bullying (like the Nat Cent for Sci Educ Inc., a private *creation-hate* group ...
www.ncseweb.org
) and you'll see. Atheistic evolutionists are
moving
, like Oxford
professor
Richard Dawkins
in his book
"The God Delusion."

As an ex-professor of Science Education, denied tenure, at a *"Christian"* college for training future science teachers to present the evo-creation issue fairly, I *know* what we are up against. And I know what to do about it.

The mission of these listserv bulletines is to aid *believing students* to contend for the Faith in their *own* hearts, and equip them as witnesses against *post-modernistic* thinking. You *know* Points of Origins has the power to *expose* all Darwinian deception.

Pray for students you know *at risk* ... in biology, other sciences, religion, philosophy, etc. Try *forwarding* some PO posts to them, get them interested, then suggest they subscribe themselves!

We are unapologetically, a 6-day, 6000-year, young-earth creationist and *Biblical literalist* ministry here at Creation Truth Foundation. This listserv is not for the purpose of trying to "convert" evolutionists ... just trying to *help students* like you who *already believe* the Scriptures are literally true (well, and tear down Darwinism, too -- okay).

Help us reach others on your campus -- **especially the underclassmen!**

Help us reach those on *other* campuses, too! ***This*** semester'll be over **before you know it!**

Hook someone up to Points of Origins **now!** It *could* have an effect in eternity***!***

Thank you for your time and attention.

Yours in the Creator & Savior,

Dr. Charles Jackson

EdD Sci Ed, Univ of Va, 1994

MS Enviro Bio, MEd Sci Ed, BS Bio

science teacher & professor since 1980

lifetime member of Creation Research Society

lifetime member of American Mensa

charter member of East Tenn Creation Sci Assoc

international creation lecturer / blogger / evo-debater

approved speaker by Institute for Creation Research

sci editor for Answers in Genesis *"Answers"* magazine

sci editor for Answers in Genesis *"The Zoo Guide"*

internet creation science teacher for Liberty University

director of college ministries at Creation Truth Foundation, Noble OK
